

A word cloud centered around the word "algebra". The word "algebra" is the largest and most prominent, rendered in a light green color. Surrounding it are various mathematical terms in different sizes and colors. The words "functions" and "equation" are large and brown. "polynomial" is purple, "element" is green, and "abstract" is purple. "operator" is blue, "multiplicative" is green, and "property" is purple. "study" is green, "solve" is brown, "quadratic" is brown, "linear" is purple, "Arabic" is purple, "real" is purple, "division" is purple, "negative" is purple, "problem" is green, "cubic" is green, "symbols" is green, "area" is green, "formula" is green, "integer" is red, "geometry" is green, "Algebraic" is blue, "function" is blue, and "geometric" is green. "college" is green, "mathematics" is brown, and "identity" is brown. The background is white.
